

## Dinosaurs 2022

### I Like Dinosaurs

(To the tune "Now you've made a pattern"/  
Bobby Shaftoe)

I like roaring very loud  
I like roaring very loud  
I like roaring very loud  
I'm a Tyrannosaurus

I like flying in the sky  
I'm a Pterodactyl

I like swimming in the sea  
I'm an Elasmosaurus

I have 3 horns on my head  
I'm a Triceratops

I've got spikes all down my back  
I'm Stegosaurus

My neck reaches up to trees  
I'm a Brachiosaurus

### Dig a Dinosaur

Dig a dig a dig a dig a dinosaur  
Lived for a hundred million years or more  
Dig a dig a dig a dig a dinosaur  
To find a dinosaur you dig some more...

### Five Hungry Pterosaurs

Five hungry pterosaurs flying o'er the sea  
One flew down to catch a fish for tea  
He flew so fast and found he couldn't stop  
Now he's in the water  
Splash, plop

5, 4, 3, 2, 1

### One Dinosaur came out to play

One dinosaur came out to play  
Upon a spider's web one day  
She thought it such enormous fun  
That she called for another dinosaur to  
come.

1,2,3,4,5,6,7,8,9,10

10 dinosaurs came out to play  
Upon a spider's web one day  
All of sudden that web broke  
And down fell all the dinosaur folk

### A Dinosaur came to visit you

(to the tune of The animals came in two by  
two)

A dinosaur came to visit you

He roared, he roared

A dinosaur came to visit you

He roared, he roared

A dinosaur came to visit you

His claws were sharp and his teeth were  
too

You could hear him roaring

Did he frighten you?

NO!

### Dinosaur Stomp

Look out, they're coming  
Dinosaurs, dinosaurs, can you hear their  
fiercest roars?

Stomp, stomp, stomp, stomp

They're coming from the muddy swamp

Come on everyone, let's roar

Stamping feet, stamping feet

Tyrannosaurus is looking for meat

He's very tall with great big jaws

Little hands but sharp, sharp claws

Stretching tall, stretching tall

Brachiosaurus was never small

Her long neck reached the highest plants

And she weighed more than 14 elephants

Flapping wings, flapping wings

Pterodactyls were such funny things

With little hands and little feet

And a great big beak to catch fish to eat

Ready to charge, ready to charge

Triceratops is looking rather large

With horns on his head and horns on his  
snout

He might just catch you so watch out
