Introducing our DP Framework

This framework comprises of a number of key documents; including our Data Protection policy and other associated policies and procedures, which together form the school's commitment to protecting the data of its pupils, families, staff and volunteers.

Compliance with this framework is mandatory for all staff.

“Personal data” means **any** information where a living person is either identified or identifiable, from the information alone, or with other information – these are known as Data Subjects. Personal data can include written information, pupil work, photographs, CCTV and film footage or voice recordings, in electronic format (which can include in Social Media, apps, databases or other electronic formats) or hard copy (including copies printed from electronic sources, and handwritten data when it is part of a filing system, or intended to be filed).

“Special category data” is personal data that needs more protection because it is sensitive.

- personal data revealing racial or ethnic origin;
- personal data revealing political opinions;
- personal data revealing religious or philosophical beliefs;
- personal data revealing trade union membership;
- genetic data;
- biometric data (where used for identification purposes);
- data concerning physical and mental health;
- data concerning a person's sex life; and
- data concerning a person's sexual orientation.

In addition, the DfE advises that Pupil Premium/FSM status is treated as Sensitive Data

“Data Subjects” include our pupils, staff, contractors, parents (and family), local authority contacts, and anyone else we might come into contact with.

“Data Controller” means the school, alone or jointly with other Data Controllers, that decides on why and how personal data is processed.

“Processing” means collecting, storing, using, sharing and disposing of data.

“Processors” are the external bodies who processes personal data on behalf of the controller.

“Staff” includes current or former; permanent employees, temporary staff, agency staff, consultants, governors, volunteers, and anyone else working for the school. We will also expect job applicants and contractors (and their staff) to comply with this policy.

“Data Protection Officer” (DPO) is a statutory role with responsibility for:

- advising the school about data protection obligations,
- dealing with breaches, including suspected breaches and identified risks
- monitoring compliance with this policy.

Our Data Protection Officer is: Education Data Hub (*GDPR for Schools*) | *Children's Services* | *Derbyshire County Council* | *County Hall, Matlock, Derbyshire DE4 3AG* | *01629 532888* gdprforschools@derbyshire.gov.uk

“Data Protection Lead” is Leyanne Simpson and is the member of school staff nominated to manage communication with the DPO.

Responsibilities

All staff are responsible for:

- reading and understanding this framework before carrying out tasks that involve handling personal data,
- following this framework,
- reporting any suspected breaches of it to our Data Protection Officer.

All leaders are responsible for ensuring their team sign to confirm they have read, understood and will comply with this framework, before carrying out tasks that involve handling personal data, including reporting any suspected breaches of it.

DP Legislation & Regulator

1. Relevant legislation includes:

- UK General Data Protection Regulation (UK GDPR);
- Data Protection Act 2018 (DPA 2018), which enacts the GDPR in the UK and includes exemptions and further detail, as well as offences that individuals can be prosecuted for;
- Privacy and Electronic Communications Regulations (PECR), which cover electronic direct marketing (“marketing” includes fundraising and promoting an organisation’s aims, not just selling.)
- Freedom of Information Act 2000, which provides key definitions referred to in the other legislation.
- Human Rights Act 1998
- Computer Misuse Act 1990, which covers unauthorised access to, and use of, computers and computer materials.
- Education (Pupil Information) Regulations 2005 which gives parents the right to access their child’s education record.

2. In the UK, the Information Commissioner’s Office (ICO) is the data protection regulator.

3. Breaches of data protection legislation can cause real harm to people whose data is handled in an unfair or unlawful way, as well as significant monetary penalties and damage to reputation.

4. Individual members of staff may be prosecuted for committing offences under Sections 170, 171 or 173 of the DPA 2018. These offences are: obtaining, disclosing, altering or retaining data without the **authority** of the Data Controller; purposefully identifying people from data that has been “de-identified”; and purposefully withholding data that a data subject has requested, and is entitled to receive.
