# Stage 3 Toilet Training

Being able to use the toilet: “help me keep going”

Think about.....

- What can the child do now?
  - What are the next skills needed?
  - Make a plan to help.
- Get inspired, talk to others and share ideas.
  - Carry out the plan. Keep practising. It may take some time but it's worth it.

Now I'm  
2-3 years old

**1.** I am wearing pants all day long from when I get up, and even when we go out.

**2.** I am not always sure if I need a wee so I might go to the bathroom lots of times.

**3.** I am sometimes not quick enough to get to the toilet/potty in time. I feel OK when my carer has lots of spare pants for me.

**4.** I am sometimes so busy playing, my carer has to remind me to go to the toilet. I am happy to be told 1-2 times but not too many!

**5.** I am happy when my carer is really patient with me. I like lots of positive attention for sitting on the toilet and even more when I do a wee or poo there!

**6.** I can go to the toilet on my own and wash my hands\*
